

Acknowledgement of Safe Seats, Safe Kids COVID-19 requirements

The health and wellbeing of you, your children and our team is always our top priority. Prior to attending your appointment, please read the below statement and acknowledge you have read the guidelines in place to safely attend a Safe Seats, Safe Kids Free Child Restraint Fitting and Safety Check venue. We have and will continue to:

Follow government directions and advice by:

- Implementing physical distancing in the waiting and restraint fitting bays by maintaining a minimum 1.5m distance between fitters and parents/carers.
- Undertaking fittings/checks with no physical contact between the fitter and any attendee or child attending the event. This includes 'checking the child's fit' in their child car restraint. All adjustments and/or changes required will be monitored from a distance.
- Reinforcing the importance of hygiene such as sanitising hands between each and every appointment and complying with directions outlined in the [Department of Health and Human Services guidelines](#).
- Remaining strict and vigilant with our cleaning routines in between each appointment
- Closely monitoring all government advice on reducing the spread of COVID-19
- Ensuring that fitters do not attend the venue if they are feeling unwell or experiencing [the symptoms](#) of coronavirus (COVID-19),
- Implement a requirement where failure to adhere to the policy by either an attendee or a fitter will result in the fitting/check not being completed and requesting they leave the venue.
- Close a venue if there is a confirmed case of COVID-19 at and follow all government procedures.

Your requirements

- Cancel your service/appointment if you or your child is feeling unwell or experiencing [the symptoms](#) of coronavirus (COVID-19), for the wellbeing of our team and all those attending our venues.
- If you are at [greater risk](#) due to a chronic condition or weakened immune system, consult your doctor's advice before attending our program.
- I acknowledge I have read the above statement and I am attending the program at my own risk. I will follow directions and guidelines when attending my appointment to minimise the risk of the spread of COVID-19 and ensure the safety of all those attending.
